The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6, 7, 13, 15, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Trcka.

Trcka shows a swing clamp for clamping a workpiece to a worksurface 13. The clamp includes a housing 12 having a recess for receiving a first and second clamp arms 16. The clamp arm has an actuator 17. When the clamp arm is in a retracted position the arm is below the elevation of the surface to be worked on. Since arm 16 swings in a vertical plane the clamp may be termed a swing clamp.

Claims 19, 20, 22, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Ersoy.

Ersoy shows a swing clamp having a branched cam having first portion which branches to a first branch and a second branch (Fig. 2 of Ersoy).

Claims 2-5, 8-12, 14, 16-17, and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
